TITLES

COOLING TOWERS

Specially designed cooling tower fill increases plant efficiency and capability ..... May 62

ELECTRICAL MOTORS AND SYSTEMS

Developments in variable speed drives ..... Jan 34
Generator breaker provides advantages over unit connection ..... May 54

ENVIRONMENTAL CONTROL AND MONITORING

In-place leak testing of nuclear air filtration units ..... Apr 65
FGD system modified to increase efficiency—retains high availability (Field Notes) ..... Aug 77
Dissolved oxygen in hydro plant discharge increased by aeration ..... Oct 62
Use of charcoal adsorbers in nuclear plants ..... Oct 66
Effects of chloride blowdown on FGD waste characteristics ..... Nov 66
Radiological dose calculations using a pocket-sized computer ..... Nov 70
Computer programs optimize SO_2 emission reduction plans ..... Dec 44

EXOTIC POWER

Solar steam system supplies industrial plant (Field Notes) ..... Jan 60
Wind turbine gearbox successfully tested (Field Notes) ..... Mar 75
Wellhead geothermal unit forerunner of larger units (Field Notes) ..... Mar 78
Largest photovoltaic power plants on line in U.S. and Saudi Arabia (Field Notes) ..... Jul 77

FUELS, STORAGE AND ASH HANDLING

Low-level radwaste solidification process used in steam generator decontamination (Field Notes) ..... Mar 76
Custom designed unit train spur will serve new coal-fired plant (Field Notes) ..... May 70
Coal supplies and the economics of treatment ..... Jun 44
The economics of coal use and power plant availability/reliability ..... Jul 22
Flyash facilitates reclamation of acidic soil ..... Dec 42

HYDROELECTRIC POWER

Pacific Northwest Regional Power Act seeks fair allocation of low-cost hydro ..... Feb 50
50th anniversary of Hoover Dam observed (Field Notes) ..... Feb 71
Dissolved oxygen in hydro plant discharge increased by aeration ..... Oct 62

INSTRUMENTS, COMPUTERS, AND CONTROLS

Fiber optic links for power plant control and data communications systems ..... Feb 54
New scanner uses visible light to detect flame ..... Apr 68
Lightweight UT gage defines boiler tube corrosion, avoids outage (Field Notes) ..... Apr 102
Computer applications in operation, maintenance and document control ..... May 42
Design and evaluation of nuclear reactor control room display ..... Jun 60
Modernizing instrument and control systems with computers ..... Sep 58
Trending and documenting boiler control system performance ..... Oct 55

Radiological dose calculations using a pocket-sized computer ... Nov 70
Computer programs optimize SO_2 emission reduction plans ... Dec 44
Data loggers monitor temperatures in large generators ... Dec 48

MAINTENANCE AND CONSTRUCTION

Unit train coal car welding ... Mar 51
In-service reconditioning of turbine-generator hydraulic fluid ... Mar 54
Design and construction management ... Jun 62
Synthetic lubricant eliminates bearing failures—reduces maintenance costs (Field Notes) ... Jun 76
Power plant scheduling, construction and costs: 10-year analysis ... Aug 36
Testing coatings for use within primary nuclear containment ... Aug 52
Protective coatings for power plants ... Dec 30

MANAGEMENT

Utility strengthens in-house project management ... Jan 48
A new look at nuclear power costs ... Feb 34
Pacific Northwest Regional Power Act seeks fair allocation of low-cost hydro ... Feb 50
Incentives for export sales and services benefit power engineering companies ... Feb 74
Revitalization and uprating of existing power plants seen as growing trend (Field Notes) ... Apr 110
Power equipment companies reap tax benefits from unused capacity ... May 92
Design and construction management ... Jun 62
Estimating radiological conditions for decommissioning studies ... Jun 66
The outlook for industrial power supply ... Jul 18
The economics of coal use and power plant availablity/reliability ... Jul 22
The electric utility industry—is it healthy? ... Jul 27
Utility planning and computerized forecasting ... Jul 58
Power plant scheduling, construction and costs: 10-year analysis ... Aug 36
Design approaches to achieve competitive LMFBR capital costs ... Sep 62
Research and development for power generation ... Oct 42
Aquaculture program indicates possible profitability ... Oct 58
Roundtable: New demands on availability and reliability (Part 1) ... Nov 48
Roundtable: New demands on availability and reliability (Part 2) ... Dec 51

NOMOGRAMS

Nomogram determines circuit components to suppress relay arcs ... Jun 70
Nomogram simplifies use of cost scaling factors ... Jul 76
Nomogram estimates combustion air ... Aug 59
Nomogram aids quick evaluation of condenser performance ... Sep 68
Nomogram estimates gas-side heat transfer coefficient in heat exchangers ... Nov 61
Nomogram determines voltage drops in wiring ... Dec 56

NUCLEAR POWER

A new look at nuclear power costs ... Feb 34
Radiation data collection program for decommissioning studies ... Feb 47
Low-level radwaste solidification process used in steam generator decontamination (Field Notes) ... Mar 76
In-place leak testing of nuclear air filtration units ... Apr 65
Nuclear waste calcining at INEL ... Apr 76
Design and evaluation of nuclear reactor control room display ... Jun 60
Estimating radiological conditions for decommissioning studies ... Jun 66
FFTF flue performance test completed; tests to characterize reactor environment begins (Field Notes) ... Jun 78
Proving commercial reactor safety in LOFT ... Jul 70
Testing coatings for use within primary nuclear containment ... Aug 52
Performance of nuclear power plants in 1981 ... Sep 54
Design approaches to achieve competitive LMFBR capital costs ... Sep 62
Use of charcoal adsorbers in nuclear plants ... Oct 66
Worldwide experience and growth of nuclear power ... Nov 31
Fire suppression system costs for nuclear power plants ... Nov 72

PRIME MOVERS AND GENERATION

Erosion tests of steam turbine blade materials ... Jan 54
Fluidized bed combustion provides for multifuel, economical cogeneration systems ... Mar 56
Engineering assessment of an advanced pulverized coal power plant ... Mar 60
New generating capacity: When, where and by whom ... Apr 54
Combined cycles have potential for cleaner, more economical use of coal ... Apr 80
Materials and design developments needed for next step in pulverized coal power plants ... May 64
Research and development for power generation ... Oct 42
Roundtable: New demands on availability and reliability (Part 1) ... Nov 48
Peak-shaving diesel generator cuts demand charges ... Nov 69
Roundtable: New demands on availability and reliability (Part 2) ... Dec 51

PUMPS, PIPING AND VALVES

High-capacity vacuum pumps can hide excessive air leakage ... Mar 48
Advantages and selection of boiler feed booster pumps ... Apr 72
Tile-lined FRE pipe withstands abrasive use ... Jul 74
A new copper alloy for condenser tubes ... Aug 60
Pumps used as hydroturbines offer economy and design flexibility ... Sep 66

SAFETY AND FIRE PROTECTION

Probabilistic safety study of Zion station ... Jan 50
Respiratory hazard protection in radioactive environment ... Jan 56
Fire suppression system costs for nuclear power plants ... Nov 72

STEAM GENERATORS AND AUXILIARIES

High capacity low NO_x coal burner for retrofit and new units ... Jan 44

Wide pressure reducing range and turn-down achieved in industrial steam sale (Field Notes) ... Jan 59
Low excess air burners increase efficiency, simplify operations (Field Notes) ... Feb 73
High-capacity vacuum pumps can hide excessive air leakage ... Mar 48
Fluidized bed combustion provides for multifuel, economical cogeneration systems ... Mar 56
Engineering assessment of an advanced pulverized coal power plant ... Mar 60
NSP converts oil-burning unit to fluidized-bed wood burning (Field Notes) ... Apr 108
Materials and design developments needed for next step in pulverized coal power plants ... May 64
New desuperheater improves reliability and economics of district heating systems (Field Notes) ... May 74
Locating feedwater heaters in high-pressure steam plants ... Jun 56
A new copper alloy for condenser tubes ... Aug 60
Roundtable: New demands on availability and reliability (Part 1) ... Nov 48
L-P steam turbine modernization has attractive payoff ... Nov 62
Peak-shaving diesel generator cuts demand charges ... Nov 69
Roundtable: New demands on availability and reliability (Part 2) ... Dec 51

TRAINING

Organization and staffing of new coal-fired power plants ... Feb 58
Recruiting and training for new coal-fired power plants ... May 60
Training, education and staffing for power plants (Roundtable) ... Sep 42

WASTE DISPOSAL

Nuclear waste calcining at INEL ... Apr 76
Waste treatment system retrofitted within deadline ... May 58
Effects of chloride blowdown on FGD waste characteristics ... Nov 66
Flyash facilitates reclamation of acidic soil ... Dec 42

WATER TREATMENT AND MANAGEMENT

Developments in wastewater handling at power plants ... Mar 34
RO vs MSF for high-capacity seawater desalination plants ... Aug 56

DEPARTMENTS

ENVIRONMENTALLY SPEAKING

A frank discussion of CEMs ... Jan 24
Progress and an acid truth squad ... Feb 24
Water, wastewater and monitoring ... Mar 30
What we don't know is hurting ... Apr 40
Uncertainties in fact and species ... May 30
Coal fines recovery research ... Jun 32
Poles apart: air/water ... Jul 38
In pursuit of cutting water use ... Aug 26
The one-way environmental syndrome ... Sep 30
PCBs, much ado and waste disposal ... Oct 30
Let's rain on *their* parade for a change ... Nov 28
Of coatings and regulations ... Dec 26

GENERATION IN FOCUS

Energy studies and reports ... Jan 12
Nuclear future: communication programs can help, but federal leadership and action is most immediate need ... Feb 10
Atomic power and economic development ... Mar 14
A correction in oil prices—Can we take advantage of it? ... Apr 22
Riding the new wave ... May 10
Studies, analyses and projections ... Jun 14
No panacea for disorderly markets ... Jul 14
Puzzling utilization rates perpetuate argumentation ... Aug 14
A switch in emphasis ... Sep 14
Technology as a social tool ... Oct 14
Strong coherent energy policy still needed ... Nov 14
Coal use down, publications on use up—is this an omen? ... Dec 14

NUCLEAR POWER ENGINEERING

The PRC's 125-MWt test reactor ... Jan 16
Cost advantage of nuclear power ... Feb 16
The Administration's initiatives ... Mar 26
The art of hindcasting ... Apr 30
Logical thought abandoned ... May 18
At what cost, for whose benefit? ... Jun 22
Constant inconsistency ... Jul 34
Reserve margin: How much is enough? ... Aug 20
Reactor with a very long life ... Sep 20
Load forecasting on what basis? ... Oct 18
Power Reactors Information System, and the Blue Plan ... Nov 20
Nuclear costs worldwide ... Dec 20

OPINION

Recommitment to a lasting partnership ... Jan 33
Toward acceptance of nuclear power—some signs of progress ... Feb 33
The fallacy of ever-increasing prices ... Mar 33
Lead time—the critical issue ... Apr 53
Grabbing the reins ... May 41
Tricky questions and glib news releases ... Jun 43
How long is an aberration? ... Jul 57
A test of reason or folly ... Aug 35
Forecasts and forebodings: Can we bridge the chasm? ... Sep 41
Options from which to choose ... Oct 41
Increasing role seen for nuclear energy ... Nov 47
A window of recuperation ... Dec 29

WASHINGTON ENERGY REPORT

No news, bad news, and good news ... Jan 20
Gas deregulation ... Feb 30
Dismantling DOE ... Mar 20
Clean Air Act: a lot of activity but not much action ... Apr 46
Utility financing and regulations ... May 26
Coal slurry pipelines; oil import fee ... Jun 26
Cogeneration and PURPA ... Jul 42
Taxes and the federal deficit ... Aug 32
Clean Air Act Amendments: still struggling ... Sep 24
Status of nuclear waste legislation ... Oct 26
Who really makes energy policy? ... Nov 24
Last-minute energy legislation—again ... Dec 23
